CSE Computer Networks - Observation

Sl. No.	Topic	Page No.	Date	Signature
1.	Basic Networking commands		20-7-26	
2.	cisco packet tracer		23-7-26	
3.	Study of Network cables		27-7-26	
4.	Setting up a LAN			
5.	Packet capture using wireshark			
6.	Error detection & correction using hamming code			
7.	Sliding window protocol			
8.	Livelactive host using Nmap			
9.	Implementing of subnetting using cisco packet tracker.			
10.	Internetworking with router using cisco packet tracer			
11.	Static routing using cisco packet tracer			
12.	Implement echo client server using TCP socket			
13.	Implement your own ping program			
14.	raw socket packet snifting			
15.	web log analysis using webalizer.
